WWF's Global Focus

WHAT - A New Deal for Nature & People

A new ambition

Protect and restore nature by 2030 for the benefit of people and the planet, in support of the Sustainable Development Goals

How we get there

by 2030

Zero

loss of natural habitats

Halve

footprint of production & consumption

Zero

extinction of species

Why

Food for 9 billion

Water for 9 billion

Diversity of life

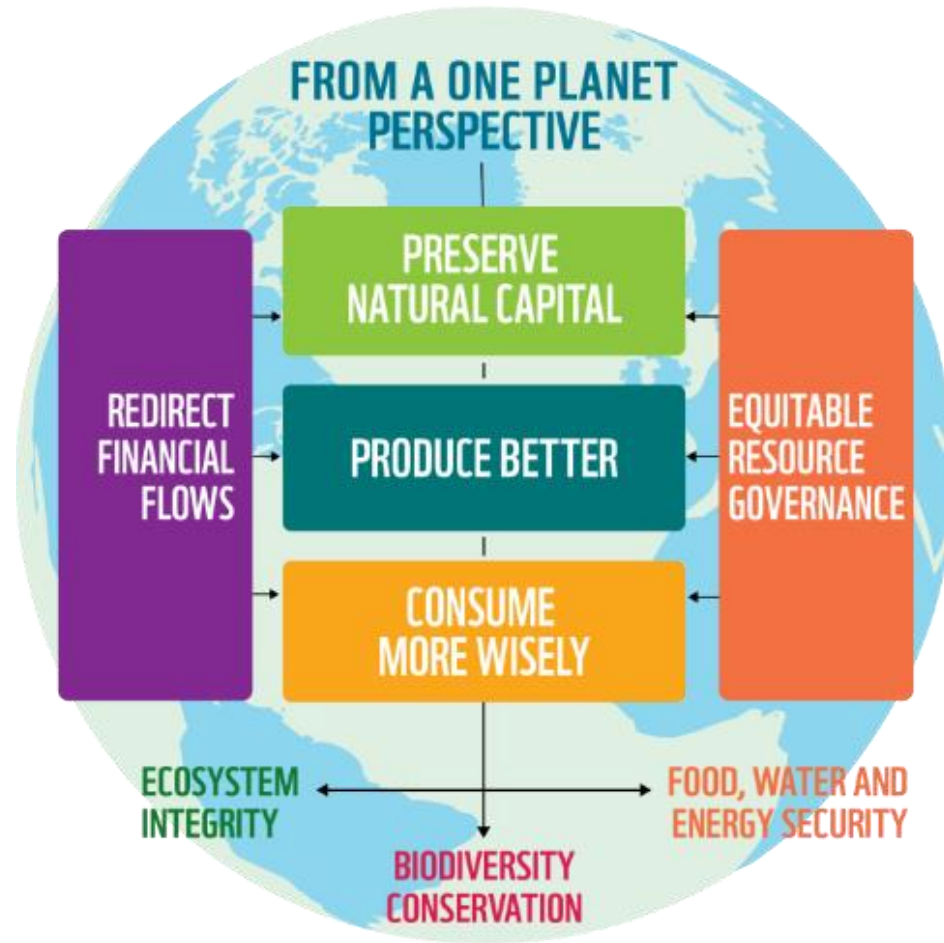

Stable climate

Good quality of life

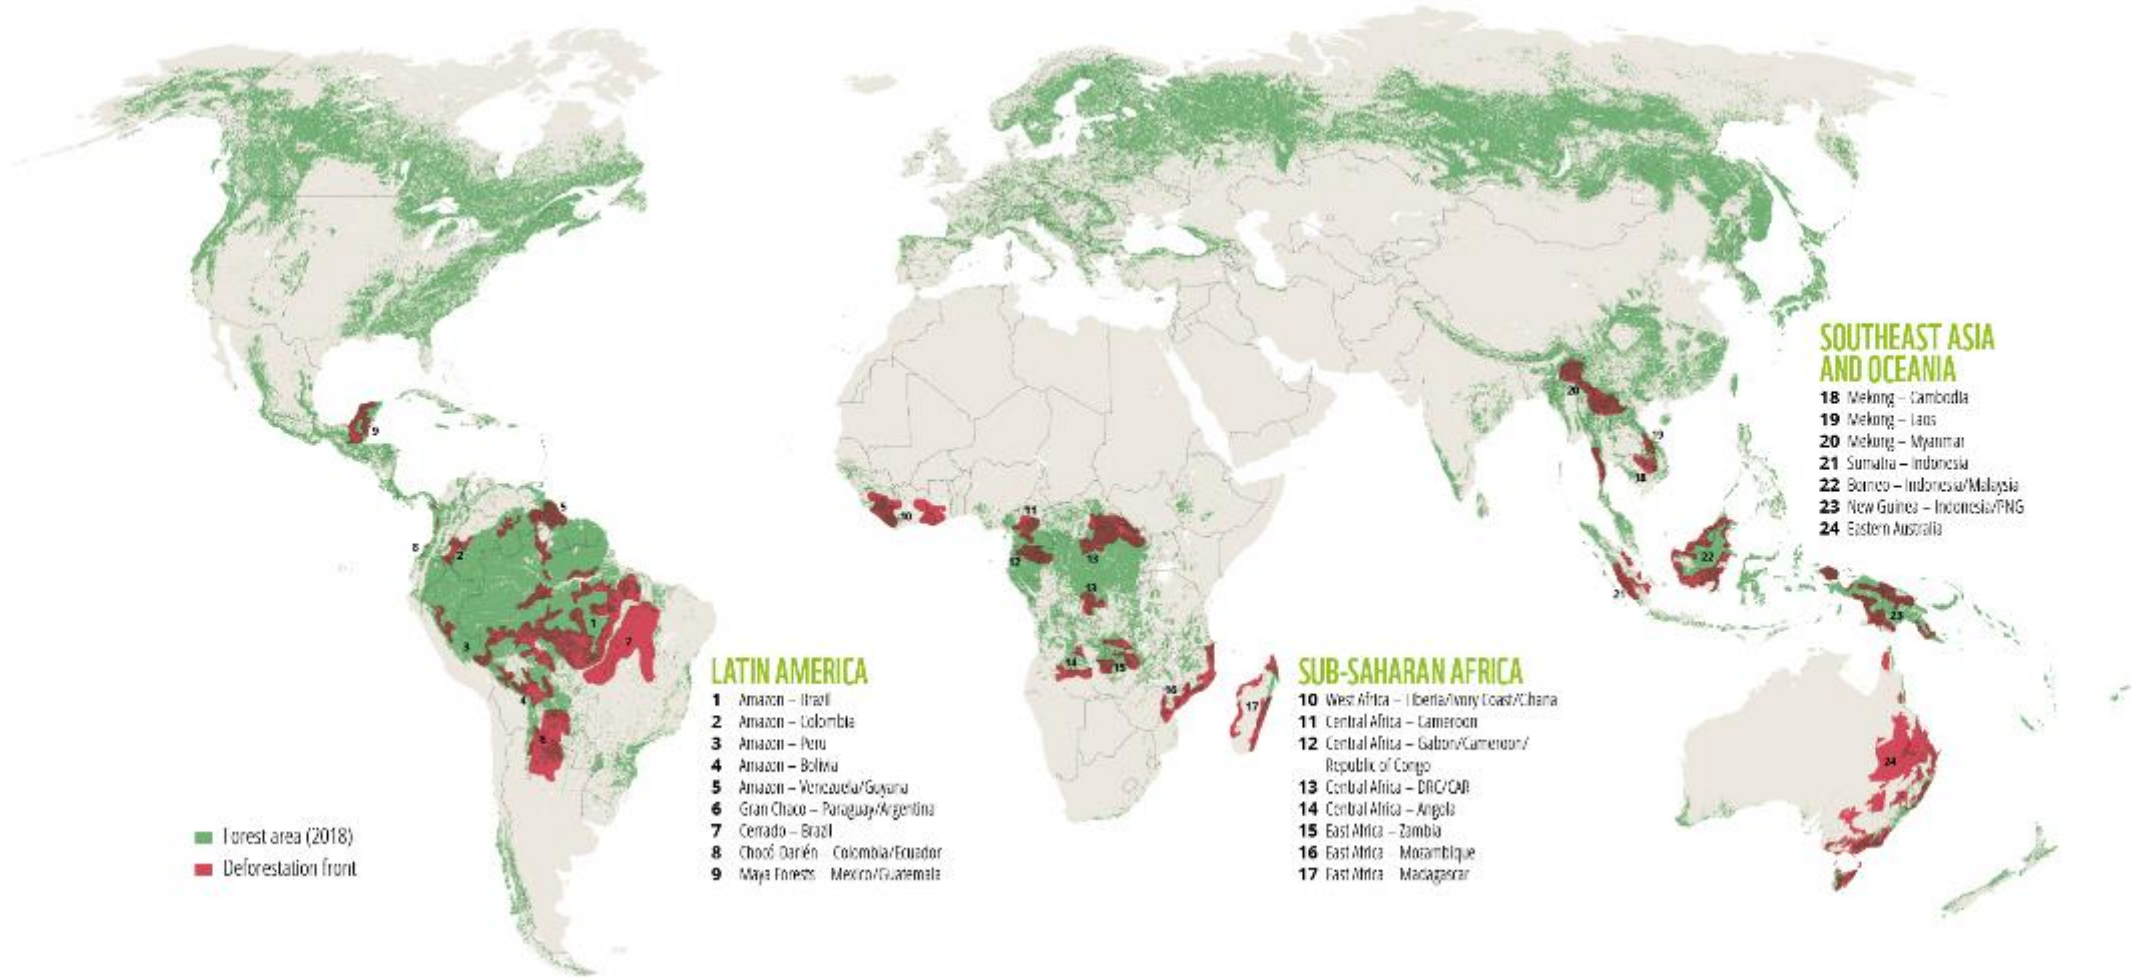

HOW - One Planet Framework

WHERE - Deforestation Fronts (2021)

WWF-Australia's Bushfire Response

WWF's Bushfire Response

| | |
|--|---|
| 1. Wildlife Response | Resource nationwide wildlife response Quantify and report on wildlife fatalities Rapid species assessments |
| 2. Protection & Restoration | Ensure unburnt habitat is protected Restore critical habitat and connectivity Promote species adaptation and resilience |
| 3. Future-proofing | Reform biodiversity laws Promote Traditional Ecological Knowledge Strengthen climate policy |

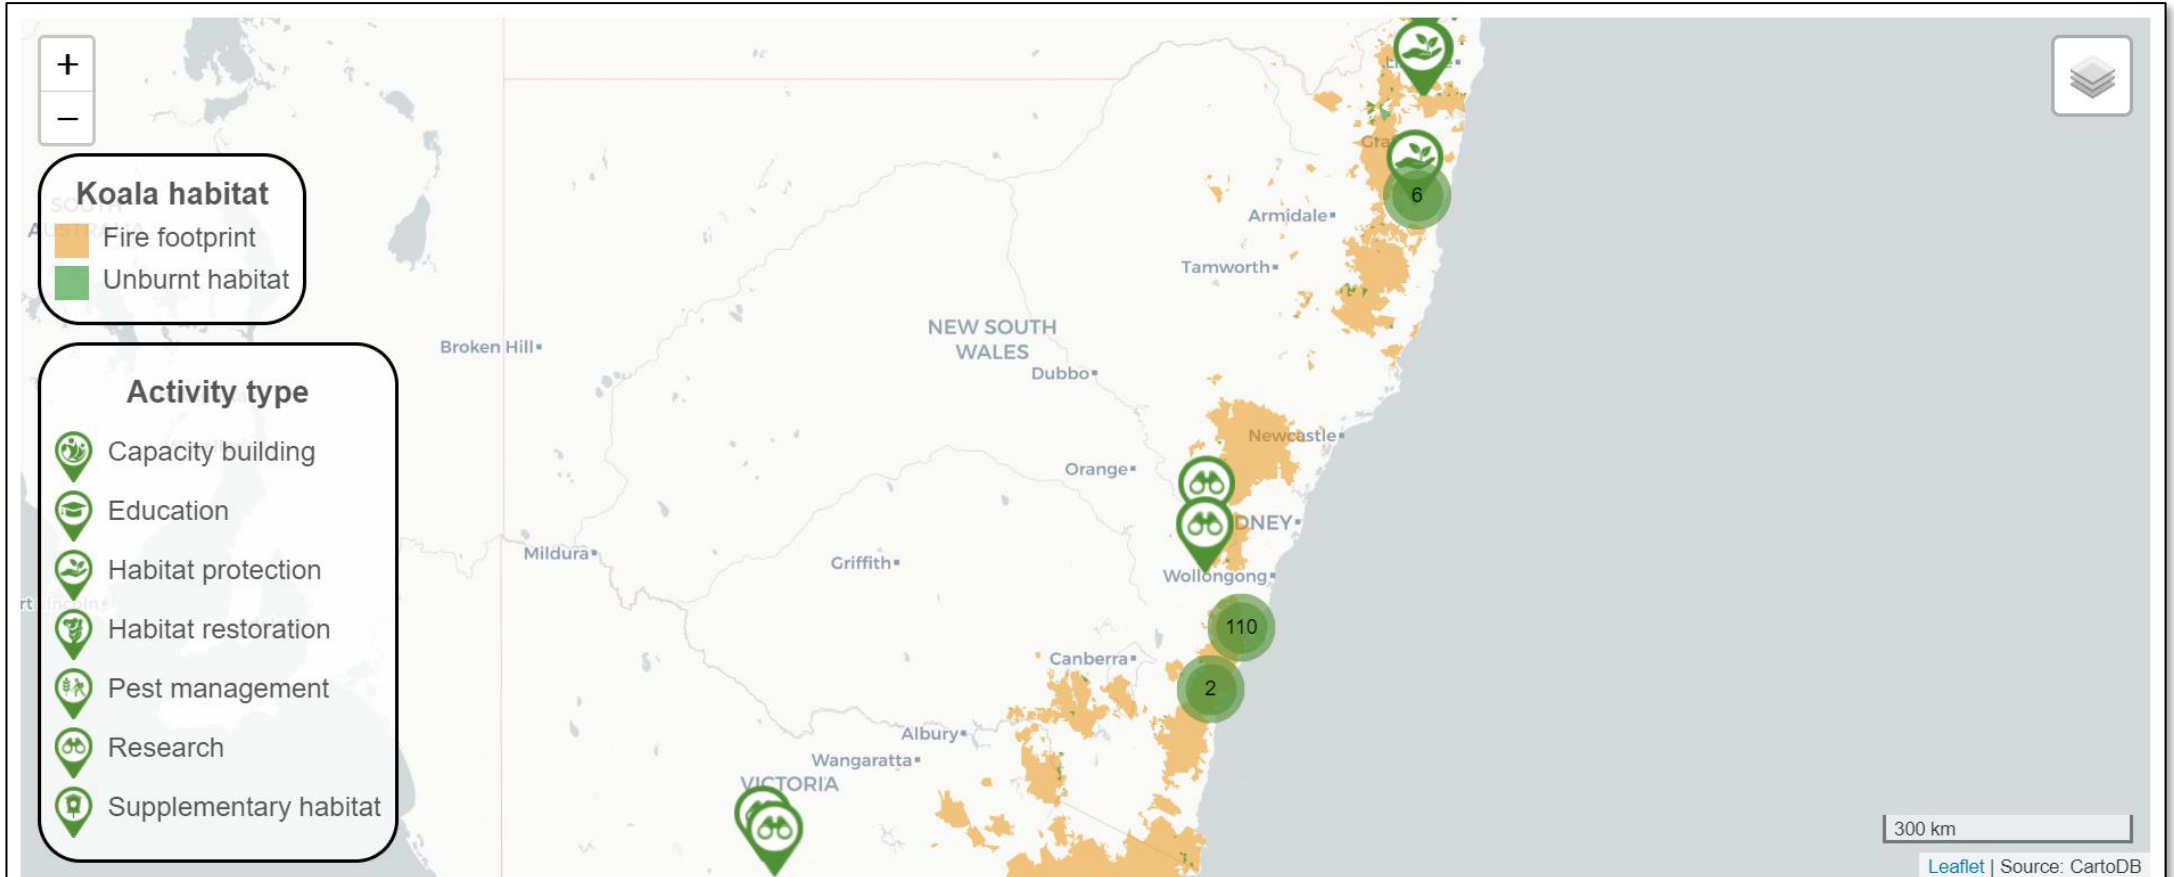

Protect
